Rotation of lines Course of the game	<p>Under the direction of the time keeper the blocks must be changed every 60 seconds. Every field player must leave the playing field. It is not allowed for any field player to play twice.</p> <p>It is a flying rotation of the blocks. I.e. after the signal "Time/Wechsel" no field player is allowed to contact the puck and must leave the playing field as fast as possible. Simultaneously with the signal "Time/Wechsel" the new block enters the playing field and continue the play.</p> <p>If the puck is not playable (e.g. puck under control of the goalkeeper), the referee will throw the puck "in the corners" to continue the game. If the puck is outside the playing field the referee can continue immediately with the throw of a "new" puck.</p> <p>After goals and after setting a penalty the game will be continued by face-off.</p>
Coaching Staff	<p>On the ice, no more than 3 people from the supporting staff (coaches and staff) are located.</p>
Length of the Game	<p>The length of the game in group and in the matches for the final ranking list is 40 minutes (2x15). By time delays, the length of the game is reduced to 30 minutes (2x15).</p> <p>Under the direction of the time keeper (every 60 seconds) the blocks will be changed. During the match the game time will only be held for a longer pause due to an injured player (which is under the direction of the referee). In this case, the parallel game (and the game time) will be also stopped under the direction of the time keeper. It is not allowed to use a "Time-Out" (rule 422).</p>
Separation of the Ice Ring	<p>The matches are held in 2 field mode. The playing fields are across the ice rink. The separation is the blue line, i.e. the playing field is the end-zone plus 3 meters.</p> <p>The remaining neutral zone will be used as the player rotation/ coach area. Due to the flying block rotation (see 6.) the players bench must be on the side of the own goal. Two matches will be held simultaneously.</p>
Goal	<p>The goals have the standard measurements.</p>
Puck	<p>The games will be played with 160 gram, black puck according to regulations from IIHF (International Ice Hockey Federation).</p>
